Description

Alpine R-Series DUAL 12" Bass Package - Get MONSTER BASS from this 1,500 Watt Alpine package. Includes Amplifier, Subwoofer and 4 AWG OFC wiring kit. Have us install it and you get a FREE 2-year replacement warranty.

R-SERIES DUAL 12 R2-SB12V

This system speaks for itself, HUGE bass while maintaining quality. These subwoofer enclosures sound as good as they look. Alpine's preloaded, linkable subwoofer enclosures give you powerful performance with the unique Alpine Halo design.

ALPINE 1,500+ WATT RMS R2-A150M AMPLIFIER

Alpine's R-Series R2-A150M 1500W Mono Amplifier is the perfect solution for

unparalleled power and performance on a budget. With a power output of over 1500W at a 1ohm or 2ohm drive, this mono amp is capable of driving even the most demanding subwoofers, delivering clean and distortion-free bass for a wide range of applications.

ALPINE PROLINK

ProLink™ is unique to Alpine and allows you to link two R2-SB12V 12" enclosures together using the KTX-H12 Linking Kit to create a dual subwoofer-enclosure.

RAPTOR PRO SERIES 4 AWG OFC AMP KIT

A pro Series amplifier wiring kit to complete the installation for rock solid bass response.

Price: \$1,649.99

***FREE INSTALLATION:** Free basic installation is what it says, free and basic! It does not include parts that might be needed to interface with your sound system or extra labor. Such as a signal converter to interface factory radios to the Alpine system or disconnecting factory noise canceling microphones. Nor does it include vehicles such as Mercedes-Benz, Porsche, Audi, etc... or any vehicle that requires hours of labor to run wires or to fix someone else's bad install. We will let you know once we inspect the vehicle and give you a quote before starting any work.

Specs:

- 1500+ Watt RMS monoblock amplifier
- Built in crossover
- Optional bass knob control (\$30)

- 2 - 750 Watt R-Series subwoofers
- HALO ported woofer enclosure
- ProLink HALO enclosure connector
- 4 AWG OFC wiring kit
