

Alpine HDZ-65CS 2-Way Components

Brand: Alpine
Product Code: HDZ-65CS
Availability: 1
UPC: 793276084835
MPN: HDZ-65CS
Location: Cleveland, Ohio

Price: \$749.95

Short Description

With the highest quality music streaming available on the market, Alpine Status delivers a superior level of audio performance that will take your music to a whole new level.

Description

With the highest quality music streaming available on the market, Alpine Status delivers a superior level of audio performance that will take your music to a whole new level.

Features

- Hi-Res Audio Certified
- Carbon composite diaphragm material on all drivers
- Alpine Proprietary Double Gathered Edge Surround
- 6.5" Mid-Bass Driver (16.5cm)
- 1.25" High Range Driver (3.2cm)

HI-RES CERTIFIED

Using expertise gleaned from over five decades of crafting premium car audio products and trickle-down engineering and design from the Ultra Hi-Res Alpine F#1 Status system technologies, the Alpine Status system features exceptional tooling and rich build quality for the best possible sound reproduction. Each component was hand-picked from the highest-quality materials for the highest in-class audio performance, that when used as a complete system, can achieve 192kHz/24bit playback.

Studio-Level Recording

Drawing inspiration from the Alpine F#1 Status system, the HDZ-65CS features a unified carbon composite cone construction throughout the speaker components for a unified timbre identity. Alpine Proprietary Double Gathered Edge Surround technology gives the speakers ultra-low distortion and linear diaphragm movement that reproduces music true to the artist's original intentions.

Ultra-Wide Frequency Range

Custom developed for Hi-Res Audio Playback, the HDZ-65CS has an ultra-wide

bandwidth of 55Hz-40kHz which is perfectly suited for accurate reproduction of even the highest quality of studio recordings. Each speaker component is designed to cover a wider range of playback spectrum giving the tuner a wider range of adjustability.

Optimized for Full System

The Alpine Status System is sold separately and can be used to build a custom sound system. Three sets of true 4V preamp outputs are included to add additional amplifiers if more power is needed. For best results, install the complete Alpine Status system together as a full system to achieve the highest in-class audio performance only second to the Ultra High-Resolution Alpine F#1 System.

Specification

Speakers	
Speaker Brand	Alpine
Speaker Size	6 1/2", 1"
Speaker Type	Component 2-Way
Sensitivity	88
Frequency Response	55Hz - 40kHz
Impedance	4 Ohm
Power Handling RMS	100 Watts / 300 Watts Max
Woofer Cone Material	Carbon Composite
Woofer Surround Material	Rubber
Woofer Basket Material	Aluminum
Tweeter Cone Material	carbon Composite
Grilles Included	No
Hi-Res Certified	Yes
