

Alpine 30MC 3" Midrange Speaker

Brand: Alpine
Product Code: 30MC
Availability: 1
UPC: 793276242921
MPN: 30MC
Location: Cleveland, Ohio

Price: \$199.95

Short Description

The 30MC 3-Inch Midrange Component Speaker can be installed in most 2-way component systems to capture midrange frequencies and elevate the vehicle's sound system performance.

Description

The 30MC 3-Inch Midrange Component Speaker can be installed in most 2-way component systems to capture midrange frequencies and elevate the vehicle's sound system performance.

Features

- (2) 3-inch Speakers
- High-Strength Cast Aluminum Basket
- Polypropylene Cone
- Rubber Surround

Build Your Perfect Sound System

The 30MC is the “cherry on top” for sound system builders looking for high-quality performance. The 30MC is a perfect power match for Alpine’s S, R, or X-Series sound system. Add a dynamic third component into an existing 2-way component system for higher-quality music experience.

Capture Midrange Frequencies

Often in a 2-way component system, there's a dip in the midrange frequencies reproduced between the door speaker and where the tweeter crosses into the passband. This can cause the music to miss most of the instruments and vocals that are found in the midrange frequency.

The 30MC Midrange Component Speaker captures the higher midrange frequencies by integrating a dynamic third dimension into the sound system that seamlessly blends between the door speaker and tweeter. This brings the vocal element up, setting the vehicle's sound stage to the optimal position of front and center.

Versatile Installation

The 30MC includes two small and sleek speakers that measure 3-inches with a mounting depth of 1 5/16-inch. The slim mounting depth allows for easy installation into most vehicle applications.

While this product is not a “direct-fit” solution for any vehicle (some installation may require vehicle-specific adapter plates) it can be professionally installed in a dash, A-pillars, or doors to capture midrange frequencies and project the sound to the front and center of the vehicle.

Specification

Speakers	
Speaker Brand	Alpine
Speaker Size	3"
Speaker Type	Midrange
Sensitivity	84
Frequency Response	100Hz - 20kHz
Impedance	6 Ohm
Power Handling RMS	50 Watts / 150 Watts Max
Woofer Cone Material	Poly Propylene
Woofer Surround Material	Rubber
Woofer Basket Material	Aluminum
Tweeter Cone Material	N/A
Grilles Included	No
Hi-Res Certified	No
